

RSTUDIO CLOUD

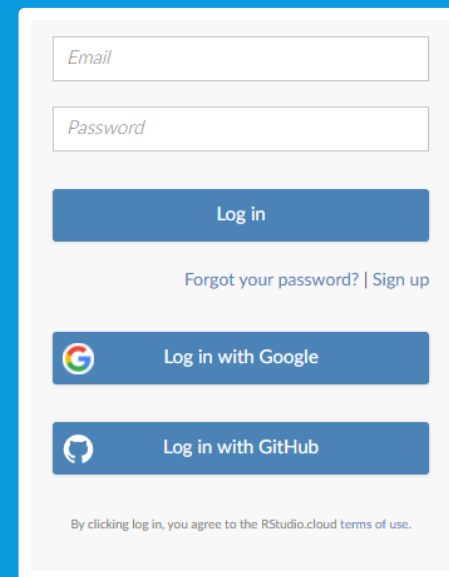

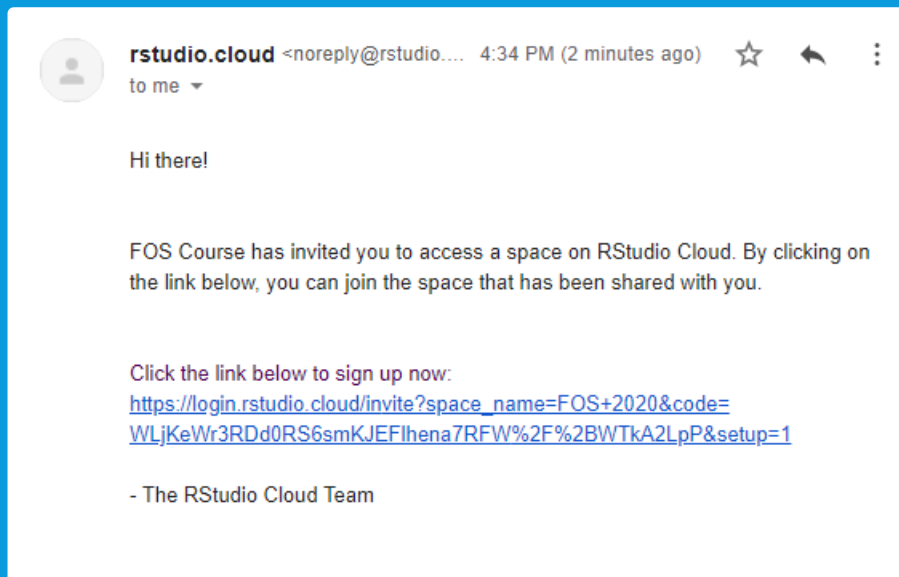

Lucy Sinke - I.j.sinke@lumc.nl

WHAT IS RSTUDIO CLOUD?

- Online workspace for RStudio Projects
- All students have the same workspace
- Required packages already installed inside each Project
- Much less time debugging and more time spent learning

HOW TO LOG ON

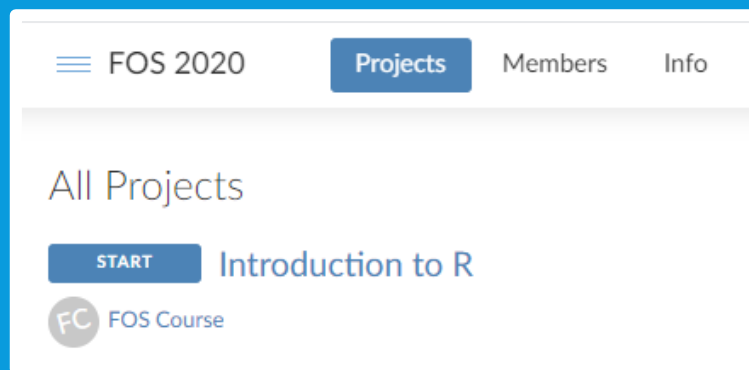

- Will be sent a link by email
- Create an account to access the course (or link to Google or GitHub)

The screenshot shows a login page. It has two input fields: 'Email' and 'Password'. Below these is a blue 'Log in' button. Under the button, there is a link: 'Forgot your password? | Sign up'. Below that are two more buttons: 'Log in with Google' (with the Google logo) and 'Log in with GitHub' (with the GitHub logo). At the very bottom, in small text, it says: 'By clicking log in, you agree to the RStudio.cloud terms of use.'

NAVIGATING THE CLOUD

- Each section of the FOS course is an Assignment
- Click the project title to start
- Can always close and continue later

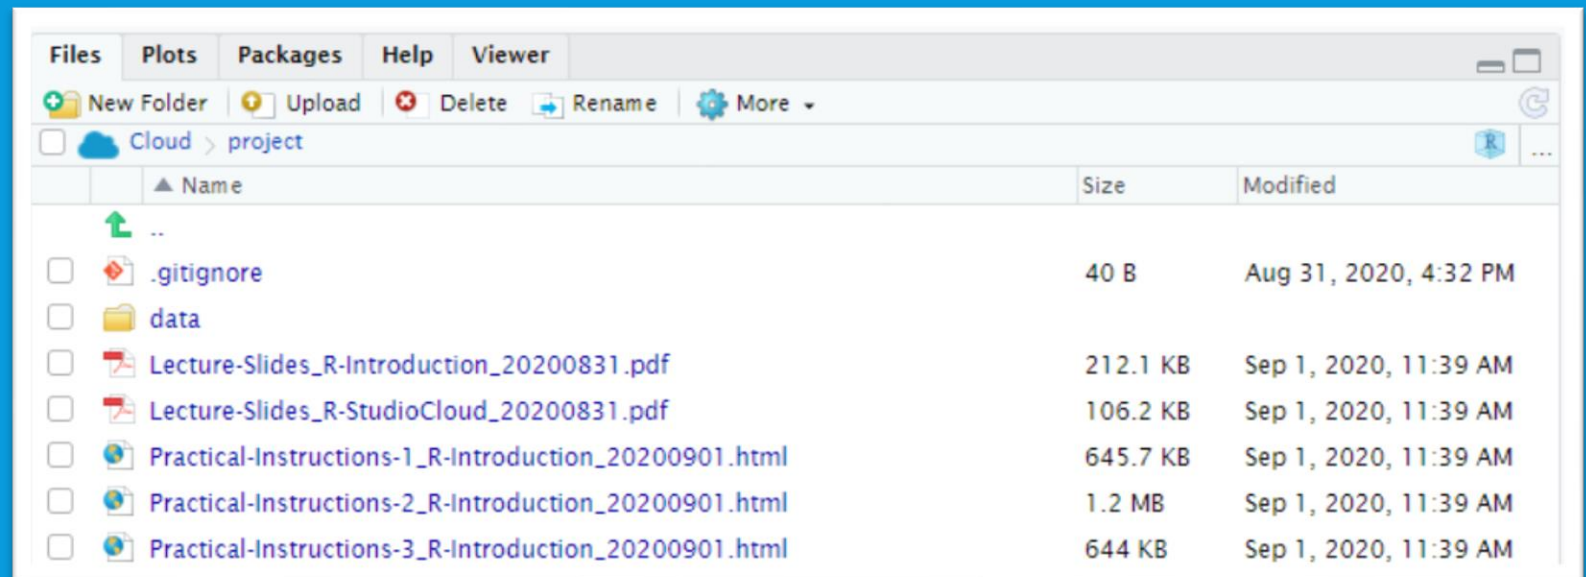

INSIDE ASSIGNMENTS

- Looks just like RStudio except in your browser

- Lecture Slides
- Practical Instructions

- /data and /source
- More > Export...

GIVING IN WORK

- Knit your R Markdown document
- Save locally and hand in
- Other software – install Java
