# RSTUDIO CLOUD

Lucy Sinke - l.j.sinke@lumc.nl

WHAT IS RSTUDIO CLOUD?

- Online workspace for RStudio Projects
- All students have the same workspace
- Required packages already installed inside each Project
- Much less time debugging and more time spent learning

HOW TO LOG ON

- Will be sent a link by email

- Create an account to access the course (or link to Google or GitHub)

NAVIGATING THE CLOUD

- Each section of the FOS course is an Assignment

- Click the project title to start – but please don't click them before the day!

- Can always close and continue later

INSIDE ASSIGNMENTS

- Looks just like RStudio except in your browser

- Lecture Slides

- Practical Instructions

- /data and /source

- More > Export…

GIVING IN WORK

- Knit your R Markdown document
- Save locally and hand in

- Discord server
